12	What is the outline of the corrections made to the press release on March 10, 2017?
	<ul style="list-style-type: none"> <li>✓ The outline of the corrections is as set out below. <ul style="list-style-type: none"> <li>➤ The execution of a tender offer agreement between Tender Offeror and GSTK2 Holdings Godo Kaisha (“GS”) whereby GS will apply for the Tender Offer with respect to all of the Shares held by it (24,509,810 shares representing the ownership ratio of 11.90%)</li> <li>➤ Change of the minimum number of shares to be tendered from 71,465,300 shares (ownership ratio: 34.68%) to 65,934,200 shares (ownership ratio of 32.00%).</li> </ul> </li> </ul>

13	What is the background of GS applying for the Tender Offer with respect to all of the Shares held by it?
	<ul style="list-style-type: none"> <li>✓ According to Tender Offeror, Tender Offeror was originally hoping that GS would apply for the Tender Offer with respect to part of the Shares held by it and continue to hold the rest. However, as GS explained to the tender offeror that it was the intention of GS to cooperate in the Tender Offer by applying for the Tender Offer, the tender offeror executed a tender offer agreement with GS on March 10, 2017 whereby GS would apply for the Tender Offer with respect to all of the Shares held by it (24,509,810 shares representing the ownership ratio of 11.90%).</li> </ul>

14	Why was the minimum number of shares to be tendered changed?
	<ul style="list-style-type: none"> <li>✓ According to Tender Offeror, Tender Offeror observed the trading activities of the Shares on the stock market after the start of the Tender Offer, and reconsidered its position on the minimum number of shares to be tendered. As a result, Tender Offeror determined to lower the minimum number of shares to be tendered, so as to make the completion of the tender offer more definite and reflect the intent of the shareholders supporting the purpose of the Tender Offer as much as possible.</li> <li>✓ According to Tender Offeror, this lowering of the minimum number of shares to be tendered makes the Tender Offer easier to be completed, because the Tender Offer will be completed with the fewer number of shares to be tendered. Accordingly, as originally scheduled, the tender offeror intends to complete the Tender Offer and proceed with the squeeze-out procedure.</li> </ul>
